live better

In 2020, for the first time in Scotland, Rowan will be delivering the COSCA Counselling Skills Certificate interactively live online.

The COSCA Counselling Skills Certificate can improve your listening and communication skills and help you to find out more about yourself & others.

Online Course Structure

The Certificate consists of 4 modules and is credit-rated by Edinburgh Napier University - completion of the full Certificate carries 40 credits at SCQF Level 8.

Each module will take place over 10 evenings, constituting 30 hours of online training time and covering 12 units.

How does interactive live online training work?

You will be able to see and interact with fellow participants throughout the sessions and split off into breakout rooms for skills practice and small group discussions.

The training will use [Zoom](#), which offers reliable and quality free software for the purpose of holding live online meetings.

There will be 2 drop-in open evenings where you can experience Zoom and chat with the trainers. These will take place on 9 September and 11 November 2019.

What equipment will I need?

You will need to ensure that you have an adequate broadband connection. You will also need a webcam and microphone so that the trainer/s can see and hear you.
