Coaching for Counsellors

Running February 2021

A training course specifically for counsellors, psychotherapists and professionals who use counselling skills.

- Could your clients benefit from a coaching approach?
- Did you know that as a practitioner of counselling skills, you already have many of the skills which coaches use?

Life coaching and business coaching are increasingly used for personal and professional development, and this is a service you could provide. Coaching skills help clients set goals, take responsibility for their actions and move forward in a more focussed way.

What will you gain by attending this course?

- You will become familiar with the International Coach Federation (ICF) Core Coaching Competencies
- You will have practised the TGROW coaching model and one other current coaching model
- You will have considered how to integrate coaching into your counselling practice
- You will understand some of the differences and similarities between coaching and counselling

Participation in this course allows you to progress directly to Day 2 of Rowan's [ILM Level 3 Award in Coaching](#), [ILM Level 3 Certificate in Coaching](#) or [ILM Level 5 Certificate](#) in Coaching and Mentoring.

Who would benefit from this course?

- Practising counsellors who want to integrate coaching skills into their existing practice, especially towards the end as clients become more robust
- Professionals using counselling skills as part of their role, and who have gained at least a Certificate in Counselling Skills
